- **Frameworks/Libraries:** React.js, Tailwind CSS, Fluent UI, Chart.js
- **React Ecosystem:** Context API, React Router, Custom Hooks, useState, useEffect, useCallback, useMemo, React.memo
- **Integrations & APIs:** REST APIs, Zoho Sign API, Zoho Books API, SharePoint Framework (SPFx)
- **Tools:** Microsoft Power Automate, Git, GitHub, Vite, VS Code, Azure Services

WORK EXPERIENCE

Software Development Engineer, Cubic Logics Pvt Ltd | Bangalore

Oct 2024 – June 2026

Revenue 365 Application (Invoice Management)

- Developed and maintained an invoice management application using React.js, TypeScript, HTML5, and CSS3.
- Built reusable UI components using Fluent UI for enterprise workflows.
- Implemented invoice preview, filtering, reporting, and PDF generation modules.
- Developed responsive dashboards and data-driven interfaces used by internal business teams.

HR365 Application (Master Application – Product, Demo & Content Management)

- Authored and maintained WordPress-based internal Knowledge Base (KB) content – pages and posts documenting how each application works, including UI screenshots – for internal teams and stakeholders.
- Contributed to a product/offers showcase module, dynamically rendering templates and promotional content based on subscription tier (Plus/Premium/Enterprise) and license type, including monthly offer/discount updates.
- Collaborated with Sales and QA teams in Agile development cycles.

Frontend Developer Intern, Cubic Logics Pvt Ltd | Bangalore

May 2024 – Oct 2024

Timesheet 365 Application (Time Tracking & Work Hour Management)

- Implemented CRUD operations, form validations, filtering, and modal integrations.
- Created reusable company-standard UI components and forms.
- Managed application state using Context API and React Hooks.
- Improved UI responsiveness and overall user experience.
